

LAC Location Change Policy

LAC offers practices in several different locations which can be a benefit to swimmers, if used judiciously. Members should understand that changing locations is not only disruptive to their own swimmer, but to the practice groups they are exiting and entering. Members should also understand that most training groups are usually full.

LAC requires that families take careful consideration when contemplating changing practice locations and understand the following restrictions:

- Swimmers must have been with LAC one full year before requesting a location change, unless their home address has changed and proof will be required.
- Swimmers can only move if space is available in the appropriate practice group.
- Swimmers may be assigned a practice group in their new location that is different from the group in their prior location.
- Swimmers in Silver and below can move locations with permission from both coaches. They are allowed to move no more than once per calendar year.
- Swimmers in Gold and above must have agreement from both coaches, as well as permission from the Head Coach. Swimmers in Gold and above are allowed to move only one time for the remainder of their LAC membership. Swimmers in Gold and above must complete the below Application For Transfer and submit it to the Head Coach.

Application for Transfer

Swimmer's Name _____ Practice Group _____

Current Location _____ Location to move to: _____

Parent Name _____

Parent Phone _____ Parent email _____
